## Muhammad Haseeb

I am a dedicated and enthusiastic computer science student with hands-on experience in full-stack web and mobile application development. I have developed projects using technologies like **React, Node.js, MongoDB, Express, and Tailwind CSS**, focusing on building practical, user-friendly applications. I enjoy learning new technologies, solving real-world problems through coding, and creating projects that combine both functionality and aesthetics. My passion lies in **frontend and backend development, project implementation, and continuous learning in the tech field**.

**Date of birth:** 30/06/2000

**Place of birth:** Attock, Pakistan

**Gender:** Male

**Nationality:** Pakistani

**Home:** G11/4 Pha Apartments D-type, 44000 Islamabad, Pakistan

## EDUCATION AND TRAINING

### Shaheed Zulfikar Ali Bhutto Institute of Science and Technology University

15/02/2021 – 14/02/2025

Bachelor's in Computer Science |  ISLAMABAD, Pakistan

[Hide details ^](#)

Level in EQF: **EQF level 6**

### Scientia Vision College

09/04/2018 – 30/07/2020

FSc (Intermediate – Higher Secondary) |  ISLAMABAD, Pakistan

[Hide details ^](#)

Level in EQF: **EQF level 4**

### Punjab Public High School

09/03/2015 – 25/07/2017

Matric (Secondary School Certificate – SSC) |  Jand, District Attock, Pakistan

[Hide details ^](#)

Level in EQF: **EQF level 2**

## WORK EXPERIENCE

### Softoo Technologies | ISLAMABAD, Pakistan

#### Web developer

01/10/2025 – Current

- Developed and maintained responsive web applications using **React.js, HTML, CSS, and JavaScript**.
- Implemented **interactive UI components** and optimized **user experience** for desktop and mobile platforms.
- Collaborated with **backend developers** to integrate **RESTful APIs** and ensure seamless data flow.

- Utilized **state management tools** (Redux/Context API) to manage application data efficiently.
- Performed **code reviews, debugging, and performance optimization** to ensure high-quality deliverables.
- Assisted in **UI/UX design implementation** based on mockups and wireframes from designers.

## SKILLS

### Frameworks & Languages

Frontend: React.js, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Material UI

Backend (if applicable): Node.js, Express.js

Databases: MongoDB (Mongoose), MySQL

Version Control: Git, GitHub

### Programming Skills

Writing clean, maintainable, and modular code

Developing responsive and interactive user interfaces

Integrating REST APIs and external services

Using state management tools like Redux and Context API

Debugging, testing, and optimizing web applications

### Personal Skills

Strong problem-solving and analytical skills

Effective communication and teamwork in collaborative projects

Adaptability and quick learning of new technologies

Time management and ability to meet project deadlines

Attention to detail and focus on user experience (UX)

## PROJECTS

### MoBix – Full Stack E-commerce Platform

Developed a full-stack e-commerce web application using the MERN stack. Implemented backend APIs with Node.js and Express, integrated MongoDB database with Mongoose, and added authentication with JWT. Built a responsive frontend using React and Tailwind CSS, created reusable components, implemented routing, and integrated frontend with backend using Axios. Managed the project using Git and uploaded the repository to GitHub, including screenshots and proper documentation.

## SkillHub – Full Stack Learning Platform

Developed a full-stack learning platform using MERN stack. Implemented user authentication with JWT, role-based access (instructor/student), CRUD operations for courses, and a responsive frontend with React, Tailwind CSS, and routing. Managed state using Context API and integrated frontend with backend using Axios. Uploaded project to GitHub with proper documentation and screenshots.

## Music Player with Playlist

Write here the description...Built a web-based music player using HTML, CSS, and JavaScript. Features include timed lyric syncing (karaoke style), custom playlists, album covers, shuffle/repeat controls, and playlist management. Added interactive UI for a smooth user experience.

## Vision Care Pro – Eye Health Monitoring App

Write here the description...Vision Care Pro is a comprehensive mobile application developed as my **final year project**, focused on improving and monitoring eye health. The app provides

a wide range of features including visual acuity tests, visual field examinations, and daily eye care routines to help users maintain optimal vision. It also offers gamified eye exercises, personalized glasses recommendations, and an emergency eye care locator for instant support. The application is integrated with wearable devices to track eye-related health metrics and provides insightful feedback to users. The project demonstrates a combination of frontend mobile development, backend data management, and health-focused functionality, reflecting a real-world, end-to-end solution for eye care.

## LANGUAGE SKILLS

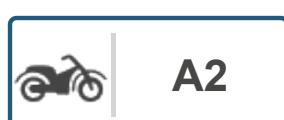

### Mother tongue(s)

Urdu

### Other language(s)

	Listening	Reading	Spoken interaction	Spoken production	Writing
English	B2: Independent user	B2: Independent user	B1: Independent user	B1: Independent user	B2: Independent user

## DRIVING LICENCE

03/05/2024 – 02/05/2029

03/05/2024 – 02/05/2029

03/05/2024 – 02/05/2029
